Illinois Department of Transportation

An Equal Opportunity Employer

Position Summary Sheet

Classification:	Land Surveyor III	Salary:	\$4,940 - \$6,820*
Position Title:	Senior Survey Crew Chief	Union Position:	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Position Number:	PW803-23-58-303-40-01	IPR#:	42160

Office/Central Bureau/District/Work Address:

Office of Highways Project Implementation/Region 5/District 8/Bureau of Program Development/1102 Eastport Plaza Drive, Collinsville, IL

Description Of Duties:

This position is responsible for supervising technical personnel in obtaining accurate survey measurements for the purpose of preparing plans for roads, bridges and culverts and for the preparation of land acquisition plats and documents. This position heads a crew which provides surveying services for project reports, design plans, land acquisition, locating right-of-way lines, center line staking for construction or other survey needs; determines type of survey to be conducted, man hours required and equipment needed; and schedules work assignments to meet due dates. The incumbent utilizes state-of-the-art, highly sophisticated equipment to obtain extremely accurate measurements.

Special Qualifications:

Required:

- Current Illinois Professional Land Surveyor license
- Valid driver's license
- Districtwide travel

Desired:

- Four years' experience in the practice of land surveying
- Working knowledge of the principles and practices of land surveying
- Considerable knowledge of surveying standards and/or plats and plans preparation
- Ability to supervise staff engaged in either field or office surveying functions

Shift/Remarks:

Typically, 8:00 am – 4:30 pm / Monday – Friday

THIS POSITION IS COVERED UNDER THE REVOLVING DOOR PROHIBITION (RDP) POLICY.

*Individual salary offers are computed based on an applicant's current position and experience level in comparison to the posted title as well as internal equity of staff in the organizational unit.

**Technical Application PM1080 (revised 6/1/17) is required. No previous version of the PM1080 will be accepted.

**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

DATE:	April 27, 2017	POSITION:	Senior Survey Crew Chief
APPROVED BY:	Kirk Brown	OFFICE/DIVISION:	Highways/Dist. 8/ Studies and Plans
CODE:	PW803-23-58-303-40-01	REPORTS TO:	Chief of Surveys

Position Purpose

This position is responsible for supervising technical personnel in obtaining accurate survey measurements for the purpose of preparing plans for roads, bridges and culverts and for the preparation of land acquisition plats and documents.

Dimensions

Subordinate Personnel:	1 to 5 direct
Number of Surveys:	50 to 100 surveys of .5 mile to 20 miles in length throughout 11 counties
Value of Design Contracts:	\$50,000 to \$20 million
Survey Equipment Value:	\$25,000 to \$75,000

Nature and Scope

This position reports to the Chief of Surveys as do the other Senior Survey Crew Chiefs. Reporting to this position are the Survey Crew Chief and Survey Technician.

This position heads a crew which provides surveying services for project reports, design plans, land acquisition, locating right-of-way lines, center line staking for construction or other survey needs for the district. To accomplish this, the incumbent receives requests for survey services from the Chief of Surveys, determines type of survey to be conducted, man hours required to accomplish the work, equipment needed and schedules work assignments to meet due dates established by the requestor. The incumbent utilizes state-of-the-art, highly sophisticated equipment to obtain extremely accurate measurements. This position is unique in that the survey work performed by the crew provides a basis for critical decisions for design plans, the land acquisition, construction and maintenance operations.

Typical problems encountered include maintaining work schedules and minimizing delays, obtaining approval of home owners for surveys conducted on private property and ensuring that all safety procedures are adhered to and surveys are completed within established time schedules. A major challenge of this position is to complete assigned surveys in a timely manner in accordance with a prescribed schedule and in compliance with accepted surveying principles, legal requirements and departmental policies. The single greatest work challenge of this position is sustaining a disciplined and efficient work force and simultaneously maintaining a cordial personal relationship among the crew members as they perform their assigned tasks.

The incumbent is personally responsible for assigning, evaluating, and supervising the activities of a survey crew which includes operating and maintaining highly sophisticated electronic surveying and computing; establishing existing and proposed center lines of highways; running control levels to establish elevations; preparing field book computations; sketches and reports and maintaining survey equipment. The incumbent is also responsible for placement of targets as control points for aerial photography for the purpose of making aerial surveys. The incumbent locates and establishes new alignments on the ground for alignments created on aerial photographs and plan sheets. Further responsibilities include researching and preparing data necessary for field surveys such as existing road plans, right-of-way plats, USC & GS horizontal and vertical control and maintaining a Geodetic file, researching the records of counties, abstract offices, and those

available from private land surveyors for land title survey plats, and other information necessary for locating property lines and section corners. The incumbent assists the Chief of Surveys in allocating survey crew personnel among the various survey projects, and takes the place of the Chief of Surveys during his/her absence.

The incumbent accomplishes accountabilities through the Survey Crew Chief and the Survey Technician who provides assistance in staking, grading and recording instrument readings. These regular survey crews are supplemented by additional engineers and technicians borrowed from Construction during the winter months and by temporary hourly personnel during the summer/fall months.

This position receives assignments from and operates under the general direction of the Chief of Surveys and in compliance with departmental policies, legal requirements, and procedures and accepted surveying principles. Problems involving survey projects which are not being accomplished according to schedule would normally be referred to the Chief of Surveys for resolution. This position is responsible for evaluating survey crew personnel, merit increases, time cards, overtime hours, travel expenses and leave requests. Additionally, this position has the authority to reschedule his/her personnel to meet the emergencies or to adjust to changing situations.

This position has regular contact with the Bureau of Program Development personnel regarding survey requirements and techniques and maintains frequent contact with the Central Bureau of Operations, Aerial Surveys, and the Bureaus of Operations and Project Implementation regarding surveys. External contacts include property owners to obtain permission to access property, county superintendents, city engineers and private surveyors for the purpose of obtaining information to proceed with survey assignments.

Performance of this position can best be measured by the volume and quality of work that is completed in a timely manner and the care that is given to the equipment.

Principal Accountabilities

1. Obtains accurate survey measurements in a timely manner.
2. Ensures that all surveys are conducted according requirements and policies. Ensures that surveys are in proper formats and to the appropriate levels of completeness for the purposes intended.
3. Provides survey scope of work on manpower estimates for consultant projects and participates in negotiating, monitoring, and evaluating consultant's survey work.
4. Provides for the optimum use of electronic and computerized survey techniques in the conduct of surveys and coordinates with in-house and consultants to assure compatibility.
5. Assists the Chief of Surveys in preparing work schedules and determining the distribution of survey crew personnel among the various county projects.
6. Researches records and plans to obtain stationing and monuments for reference and starting points.
7. Ensures that survey equipment is always in acceptable condition and working order.
8. Performs duties in compliance with department safety rules. Performs all duties in a manner conducive to the fair and equitable treatment of all employees.
9. Directs, trains and motivates staff.
10. Performs other duties as assigned.
